The leaving date column is the earliest date a child of that age may leave school and the date after which he/she is not of compulsory/mandatory school age. Children over this age can/and do return to school for further education but they would not be considered 'children' under Child Employment & Child Entertainment (performance) legislation. They would not be required to be registered for employment for part-time jobs under the permit system nor licensed for performances i.e. modelling, theatre, commercials, films, TV, sound recordings, sport and so forth with their Local Authority.
