‘Learning Through Play’

Supports children to:

- Counts objects
- Understand quantity
- Learn early problem-solving

Snack Count and Share

This week we’re going to explore mathematics. Developing a strong grounding in number is essential so that all children develop the necessary building blocks for strong foundations in mathematcis. Children should be able to count confidently, develop a deep understanding of the numbers to 10, the relationships between them and the patterns within those numbers.

Use snack time to count, compare amounts and share fairly.

Extend: Ask and encourage asking questions e.g. “who has more?” or “how many altogether”
